Characteristic values

The specifications stated in the paragraphs 'Quality control data' and 'Additional product descriptive data' finally and conclusively describe the properties of the product.

INCI name:	Tocopherol
Physical form:	Transparent, brownish-red, viscous oil with characteristic odor

Quality control data

(Data which is used for quality release and is certified for each batch.)

Test property	Specification
Appearance at room temperature	Corresponds to the standard
Odor at room temperature	Corresponds to the standard
Tocopherols, mixed	min. 500 mg/g

Specific methods used for batch release see Certificate of Analysis. Only the data displayed in this document shall constitute the agreed contractual quality of the product. Chemical-physical characteristics reported in other product related documents (e.g. MSDS, Marketing brochures etc.) are not intended to define the quality of the product. Conversely, Product Specification does not address product communication, human and/or environmental safety or socio-economical characteristics.

Additional product descriptive data

(Data which is proven statistically but not determined regularly.)

Test property	Specification
non-alpha-Tocopherols	min. 80 % of total tocopherols
Optical Rotation	min. + 20 degree
Acidity	max. 1.0 ml of 0.1 N NaOH in 1 g

Specific methods used for batch release see Certificate of Analysis.
